*"After 7 years of infertility, my **natural conception** using homeopathy was a miracle! Thank you!"*

*"Kari is my family's homeopath and we have all progressed more with her in 3 months than we did in a more than a year with three other homeopaths. She has been a great help, especially for my adopted children, one with **Aspergers**. She is brilliant, persistent, always available and she is doing a great job for us. She really cares tremendously for her clients."*
Sandy, West Lawn, PA

*"Words cannot describe how appreciative I am of her patience, wisdom and care. Kari is such a compassionate person whose **extensive knowledge** and willingness to listen endlessly, while I expressed my concerns, helped my **baby daughter** and me so much!"*
Jill, Madison, WI

*"Kari is wonderful, the best thing that has ever happened to us. Our son's issues are now fairly mild, but she is currently helping with **violent anger** (what a blessing to have help with that!), obstinacy, digestion, and other **Autism Spectrum (ASD) issues**. She is also helping my husband deal with **work stress**. I can't recommend her highly enough."*
Ann Everheart, Palo Alto, CA

*"In the past six months, I've gone from being a **depressed, lethargic 29-year-old with horrible monthly cramps** to a happy, energetic 29-year-old without cramps! **Working with Kari has literally changed my life**. I am so grateful for the help and support she's provided. Homeopathy is about healing the whole person. **Kari really believes in that and takes the time to invest in each patient.**"*

Megan, Portland, OR

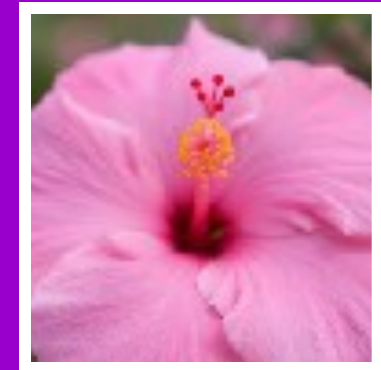

*"Kari takes a personal interest in all of her clients. She is personable, knowledgeable, very responsive and serious about her practice. When we met, our daughter had **terrible eczema and repeating colds**, we tried many alternative methods and nothing worked. Now we have a beautiful and vibrantly healthy child."*
